Michele:

"And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters. And God said, Let there be light: and there was light. And God saw the light, and it was good; and God divided the light from the darkness."

The re-lighting of the tower of Saint Rose was a beautiful and inspirational event (see attached files). Congratulations to all who made possible the restoration. By my count, the bell was rung 214 times.
